

THE MACHINE

Consider everything,
Delivering on Expectation

The machine is specialized in second hand machinery - "injection molding machine"
The machine aim to create long-term relationship to be the most reliable partner.

TODAY

- Company Formed initially as GyeongDong Screw
 - Changed name to GyeongDong Machine
 - Incorporated KENC Corporation
 - Changed name to The Machine
 - Enhance Business Portfolio with capacity expansion
- We do
We get better
We will

The Machine Portfolio

Business Scope

The Machine holds

Over 150 +
Used Injection
Molding Machine

The Machine imports/exports

Top global
Japanese Brands

The Machine carries out

100%
Professional
inspection & test

Optimizing maintenance operation

To ensure maximum injection molding machine availability and reliability, THE MACHINE offers total solution on maintenance and engineering support to customers with our specialist.

Packing & Delivery

Logistics

Port | Port of Busan, Korea

Packing Details | Standard Packing

Follow customer's detailed requirement

Lead time | Min. 7days or less for ready

will be negotiated

Certificate Agency Service

Certification

KC Safety Certificate agency service

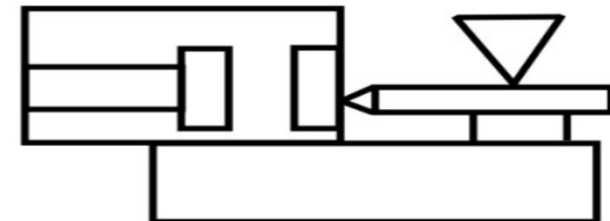

- Document Audit
- Product Audit

Safety Criteria

- Product safety control by government
- Electrical Supplies
(including Injection molding machine)

In order to secure the safety of the public, Korean Agency for Technology and Standards administer product safety controls for products including industrial goods, electrical supplies, and children's products before and after they are released to the market.
